

MARS-GLOBAQUA Internal Workshop

The workshop is organised by MARS, GLOBAQUA with the collaboration of SOLUTIONS with the final objective to address common products between the projects. The workshop includes parallel sessions for each of the topics under discussion as well as Plenary sessions at the beginning and the end of the workshop.

Each topic is led by a chairman of each of the participant projects in order to encourage the audience to discuss and end up with ideas for integrated papers including the three projects.
